WHAT STAGE IS THE PROJECT AT?

The Project Team is currently seeking to identify the Preferred Option for Glenties in conjunction with the Steering Group.

Hard defences, increased channel conveyance and natural flood / catchment management measures are the measures which are currently being assessed.

PUBLIC INFORMATION DAY

The Project Team will hold a Public Information Day once the option assessment is complete. The purpose of the Public Information Day will be to let the public know how the information they provided at the Opening Public Consultation (November - December 2021) has been used in the assessment of options.

ENVIRONMENTAL ASSESSMENT

The RPS Environmental team have now completed specialist surveys, habitat mapping and protected species surveys. This data has informed the option assessment process. Further specialist surveys may be required subject to the selection of a Preferred Option.

OUTLINE SCHEME PROGRAMME

	Activity	2020	2021	2022	2023	2024	2025	2026	2027
Stage 1	Data Collection and surveys	█							
	Hydrological Analysis		█	█					
	Hydraulic Analysis		█	█					
	Scheme analysis & development			█	█	█			
Stage 2	Planning					█	█		
Stage 3	Detailed design of Scheme						█	█	
Stage 4	Construction works							█	█
Stage 5	Scheme Operational								█

Timelines provided as current best estimate but are subject to revision.

NEXT STEPS

Hydrological and Hydraulic Analysis: RPS are in the process of finalising the hydraulic reporting.

Scheme Analysis and Development: RPS are working to identify the preferred option in conjunction with the Steering Group. RPS are developing Scheme Analysis and Development reporting including supplementary reporting on the application of nature-based catchment measures, buildability, operation and maintenance and climate change adaptation.

Environmental Assessment: The need and types of environmental assessment will be identified when the approach for Glenties is finalised. A public consultation will be held to identify constraints and opportunities particularly in relation to nature based solutions and catchment management.

Public Information Day: A Public Information Day will be held once the option assessment is complete.
